NAME OF ORGANIZATION: UNITED KINGSWAY INTERNATIONAL

HISTORY OF UNITED KINGSWAY INTERNATIONAL (U.K INTERNATIONAL)

United Kingsway International was started humbly way back by Emmanuel K. Macmawuli in Tema. In his desire to see children grow to be responsible adults and to be in a position to earn decent living. He started by organizing teaching service in his house at Tema Community 4.

The Company operated in electrical and electronic home-used materials and the supply of A4 sheets in boxes on demand. This enterprise did fairly well and after some time experienced a downward trend. Most communication centres bought A4 from him. There was a recession in the industry and accordingly his business was affected. The trading was done during the day and the teachings were done at evenings. To raise capital for his activities, **he sold his Radio – CD Player called Pieces Sound System.**

In the process of time, the news about what he was doing spread around and parents started inviting him into their homes to assist their children. The invitation to do such went as far as **Nungua Barrier area, Tema-Bethlehem, Tema Community 2, Tema Community 8** and a lot more.

Meanwhile as he did this, he maintained a regular Hospital Visitation on weekends, Saturdays and Sundays during the visiting hours. In the morning, at such visits, he visited the wards and would give **words of encouragement to patients from the scriptures and pray with them.** His favourite ward is the children's ward. He would usually visit that ward and after which he visits other wards. **This he still does. He calls it Missions.** This was in 1995 – 1996 there about. When news about his services were spreading, the University lecturers who were on strike rescinded their decision and he was admitted into University of Cape Coast to pursue a degree programme in **Education, Business Management.**

When at the University as a student, he persisted in his “**Missions**” calling. On completion of his University Education, he picked the house to house teaching and the Hospital visitations (Missions) again. In a process of time, a groundnut packaging machine was purchased by which he produced rubber for sale. All kinds of menial jobs were undertaken just to put body and soul together. Diapers and other were among those products he sold. The rubber machine was sold and the amount went in as investment in the educational and trainings venture.

..TRANSFORMING LIVES, MAKING SOCIETY BETTER...

A DREAM WAS BORN

In 2004, he had a land in Ashaiman and started United Kingsway International under a Palm Nut Tree to offer teachings from the scriptures to learners who were of school going age basic literacy skills but were not in formal school. In **2024, 2nd March** an **office table, a bench** and a number of **wooden metal-chairs** were brought to the school's premises. On Monday **4th March, 2024** the school started humbly under the **Palm Nut Tree**. For the first two weeks, nobody responded. But from the third week onwards, enrolment started pouring in. Within two (2) weeks, he had 26 children. Currently, the **population of the school stands at 1,000** and about **50 staff**.

The enterprise has grown from just a school to other educational services including Awards & Honours, Missions; a visit to Senior High Schools for a talk (preaching) and Hospitals to encourage patients and pray with them. Plans are being developed for a tertiary online dimension in addition to the current services. The awards started as an activity that comes into play when the school is having a graduation ceremony for the learners in the school. In such situations, individuals and organizations in the vicinity who are contributing to make life and society better were awarded. The awards program is now a global activity and celebrates individuals and organizations locally and globally. The mission activities spans across the nation, most Senior High Schools in Ghana have been visited.

The enterprise assumed the name Glotact briefly, was changed to Tact, Kingsway and now United Kingsway International (UK International).

pACHIEVEMENTS

- Has transitioned from a dream into a reality.
- Has moved from under a Palm Nut Tree into a High Rise Building.
- Has created employment to about 50 staff.
